

MediKredit

The MediKredit facility, that allows you to send a medicine claim directly to the medical aid is a standard feature in the program. At the point of posting the transaction, you will be asked whether you want to send the script details to MediKredit. If you respond YES, the system will automatically link to the service, and report back with the submission. Full tracking is provided and patient and medical aid portions are adjusted automatically. Using the system is as simple as clicking on the YES button, once the Transaction Posting button is activated. However, you do need to set up MediKredit to ensure its operation. Full and updated details are available by pressing the f1 help file.

The Medikredit software is **ONLY** installed on the machine with the modem /radio pad / open line, and **not** on all machines, or specifically the server when working in a network environment.

MediKredit Installation

Click on the ' **Install Medikredit**' option of the auto run screen
The following screens will appear:

Click on Next

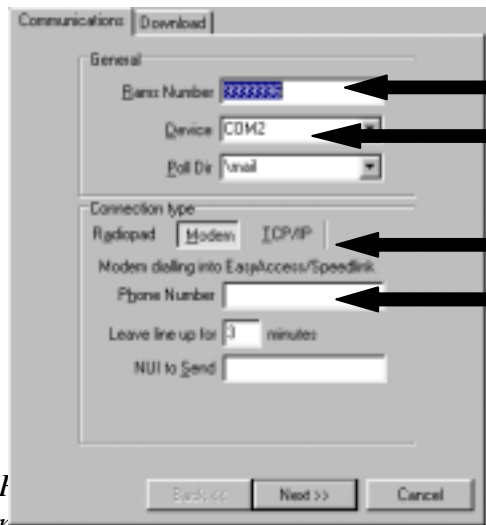

Wait a short while, while the program installs. When it is finished the following screen will appear:

Make sure the **check box** next to 'Yes, Launch the program files' is **ticked**.

Click on '**Finish**'.

Configuring MediKredit

Enter your Practice number in this box

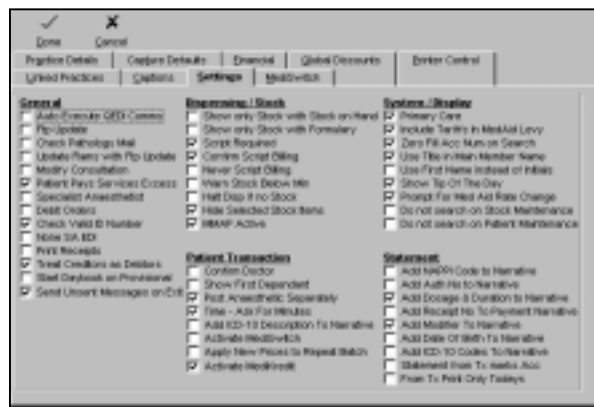

C:\mail

See below for telephone
NUI: 901670NNXRR OR 200800XYIR

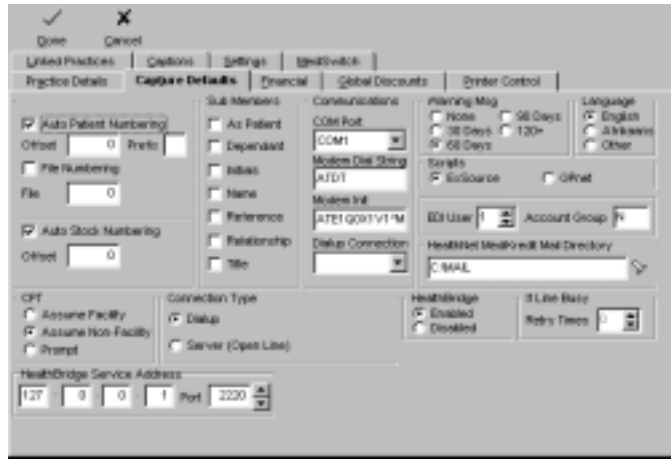

Use the same name as the port used by the Modem.

- Click on the **Download** tab.
- Click on **'Save configuration and run SysParms now'**
- Close all windows, and restart your computer.
- Open Health Focus.
- Click on **Utilities | Setup parameters**, then on the **'Settings'** tab:

- Now click on the **'Capture Defaults'** tab:

- Set the 'HealthNet Medikredit Mail Directory' to C:\Mail.

When working in a network environment, the 'workstations' will have a mapped drive letter to the 'server's' mail directory. If you are unaware or unsure of the procedures, contact support.

- Click on **Utilities | Downloads.**
- Check the 'update Medical Aid' check box. Uncheck any others
- Click on 'Start'.
- Click on 'OK'.

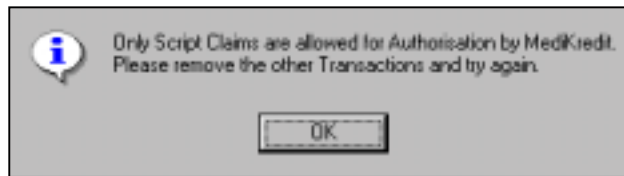

Now all patients linked to Medical Aids which are MediKredit active, are automatically activated to send medicine claims via MediKredit. Old transactions will not be sent, only new postings.

When you call up a patient in transactions who is linked to a MediKredit active medical aid, you will see the MediKredit icon displayed:

- You must post your medicines separately, or you will get the following message when you click on **'Post'**.

- When you post medicines only, after clicking on **'Post'**, the following screen will appear:

- Wait for the response from MediKredit. All the response details will be saved on the transaction, and can be viewed in the enquiry screen.

Please note that if, for any reason, your system is interrupted during this real-time claiming process, e.g. power failure, you must first re-index your files, and then go an check whether the transactions appear in enquiries. If they do, then the claims was successful, if not then you must re-enter the transactions
